About Me

I am a 25 year old New Zealander who has been living in England for 14 months. I have been learning JavaScript in my spare time for 8 months. Recently I have started to learn HTML and CSS.

I have built and published two websites using HTML and CSS which are both responsive and W3C compliant. Also I have experience using Git for version control, and host [various projects on Github](#).

I am constantly continuing to develop my skills as a web developer, whether that be [experimenting with projects](#) on codepen, learning new tools like gulp and scss, or developing [websites](#). Every day I am learning, and love what I do.
